Painless Filling

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

COMMERCIAL ROW, RENO. OFFICE IN STEELE BUILDING. - -

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter-DEAR SIR:-It affords me pleasure to say that the Hale method of painless filling opens a new era in the deather to say that the half of painless filling opens a new era in the deather world. After having sever. I very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond competition.

PATRICK HENRY.

Dr. Porter—Dear Sir:—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I went to one of Dr. Leek's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure the torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as if you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you claim for it.

Dr. Porter—Dear Sir:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations.

MRS. H. PRENTISS.

Dr. Porter—Dear Sir:—It gives me great pleasure to state that I am ther oughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method.

MARY E. FLECKENSTEIN MARY E. FLECKENSTEIN.

Dr. Porter—Dear Sir:—After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method. Respectfully yours, HENRY J. NEYLAND.

Dr. Porter—Dear Sir:—I believe that the Hale Painless Method of filling is destined to lead the world in its especial field of usefullness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensative teeth filled to me JOHN SHERITT.

vent it. Lexicographers define parity as "the condition of being equal in state or degree," therefore the parity of gold and silver is not maintained ing laws and the regulations of the treasury department. The mints are open for the coinage of gold and closed against silver. A miner can take his gold to the mint and get its full value in coin. The mints will not receive silver for coinage upon any terms. The treasury department buys a limited quantity at the price that European speculators place upon it and stores it in the treasury vanits until coined. A the purpose.

The fact is each and every administration since 1873 has exerted its influence to destroy the parity of gold and silver, by discriminating against silver. to cancel a government obligation and yet the so-called servants of the people, who are in reality the tools of Wall street, try to deceive them by prating about their determination to maintain the parity of gold and silver. If this or the preceding administration honestly desired to keep gold and silver equal in degree, the silver bullion now stored in the treasury vaults would be coined and used in the commercial transactions of the country either as standard dollars or in silver certificates, which to those who dislike coin, is as convenient and valuable for every purpose as greenbacks or treasury notes.

While the mints are closed to silver and it is treated as a commodity and the administration, lest it should offend Wall street, will not redeem the notes paid for sliver in silver as the laws of congress authorize it to do, this demogogic cry of maintaining the parity of gold and silver is the veriesi bosn. Open the mints to silver as well as to gold and pay a reasonable proportion of the government obligations in silver dollars or paper representing them, and silver will maintain us parity, its equality as a money metal, with gold without any effort whatever on the part of Wall wreet Republicans and Democrats, and the financial question will settle itself, business will revive, prices will advance and prosperity be restored to the country

#### THE STALWART REUNION.

The reunion of the "old guard," the Chicago convention of 1880, and went down with Grant's banner floating defiantly before the triumphant "halfbreeds," was held in Philadelphia a few days ago The roll call showed that about eighty of the "306" had joined their chieftain on Eternity's shore, and that only sixty-eight were present. Several of the survivors had severed their connection with the Republican party since the defeat of Grant at Chicago. They preferred Democracy to "half - breed" Republicanism Among these is reckoned Judge Gresham, now secretary of state under Cleveland.

Those present organized the "306" old guard association, of which ex-Governor Boutwell of Massachusetts was elected president. A sumptuous banquet was served and one hundred and fifty persons, many of whom were invited guests, participated in the feast. Speeches eulogistic of Grant, Logan and Conkling, were delivered, the object of the association being to keep green the memories of those departed chiefs and forter a feeling of comradism among those who rallied to their standard and stood by their colors until overpowered by superior numbers in the Chicago convention of

Strong one-story buildings with walls two feet thick were leveled to the ground.

A heavy freight engine and a whole train of cars were blown from the track and demolished and several hundred feet of the sidetrack of the railroad torn up.

The number of injured runs over one nundred.

Citizens grom Weatherford went out this morning to render any assistance possible.

The building which Frank Hickman occupied was blown down and five children killed. Many telegrams asking assistance have been received. They say more than four-fifths of the people are without houses and that help is needed to bury the dead and take care of the wounded and relieve those who lost everything. A special to the News says: Mayor Rollins reseived a message this afternoon from County Judge Davenport of Eastland county and Mayor Graves of Cisco, appealing for aid for the storm sufferers at Cisco. Mayor Rollins at once issued an appeal to the citizens of

Gainsville for contributions. At Ringgold, Montague county, the remnant of the famous "806" stalwarts storm unroofed the house of Mrs. who withstood the shock of thirty-six Birge, blew several freight cars off the ballots with unbroken front in the sidetrack and caused the terrorized people to take refuge in a large cellar where they suffered greatly from confinement and suffocation. No one was seriously injured.

R. F. Willie, who arrived from Dallas to-night, was at Cisco an hour and a half. He says twenty-one dead persons have been found and over one hundred wounded counted. Among the dead are Daniel Cameron, R. M. Whitesides, Sims, a Texas Central brakeman, Mrs. Chas. Jones and child, Mrs. J. T. Thompson and five children of Mr. Hickman, who were asleep in bed, and were crushed to death by the falling house. WASHINGTON, April 27.—No better inindications of restored confidence in the financial situation is necessary CHICAGO, than that no gold exports were made from New York to-day, and it does not appear now that any large amount will go out on Tuesday, and perhaps none at all.

"As a matter of fact there is less gold in the national banks of New York than in Chicago, and the gold center is west of the Alleghenies," remarked a prominent treasury official to-day.
